BUSINESS ANALYSIS

Objective

As a passionate and self-driven B.Tech CSBS student with strong skills in HTML, CSS, JavaScript, Bootstrap, Java, Python, and MySQL, I aim to leverage my hands-on experience in developing over 5 fully responsive websites to gain real-world exposure and contribute effectively to dynamic software development projects. I am seeking internship or project opportunities where I can enhance my full-stack development skills, collaborate in a professional environment, and build scalable, user-friendly web applications.

Experience

Codesoft

Web Developer

Feb 2025 - Mar 2025

where I gained hands-on experience in building responsive websites using HTML, CSS, JavaScript, and Bootstrap, and worked on dynamic projects involving Java and MySQL. This internship enhanced my technical skills and real-world project exposure.

Project

Personal Portfolio Website

HTML, CSS, JavaScript, Bootstrap | Netlify

Designed and developed a responsive portfolio website to showcase my projects, skills, and resume. Features include smooth navigation, contact form, and mobile optimization. Hosted live on Netlify.

Avengers Themed Calculator

A simple, responsive web-based calculator built using HTML, CSS, and JavaScript. Hosted on Netlify, the project features a clean UI with plans for an Avengers-themed design. It performs basic arithmetic operations and is styled for both desktop and mobile use.

BookMyShow Clone

simple movie ticket booking website built using HTML, CSS, and JavaScript. It features a responsive design, movie listings, booking options, and smooth navigation. The project mimics the core layout and functionality of the original BookMyShow site without using any frameworks or libraries.

Perfume Website

DK Perfume Website is a stylish, responsive single-page site showcasing luxury perfumes. Built with HTML, CSS, and JavaScript, it features smooth animations, elegant product displays, and mobile-friendly design. Hosted on Netlify, it's ideal for portfolios or e-commerce demos.

Certification

Java Programming by Programming Hero

I have successfully completed the Java Programming course from Programming Hero! This course deepened my understanding of Java fundamentals, object-oriented programming (OOP), data structures, algorithms, and real-world application development.

Web Development by Programming Hero

This journey has equipped me with hands-on experience in front-end and back-end technologies, including HTML, CSS, JavaScript, Mysql, java. I've built responsive web applications, improved problem-solving skills, and gained a deeper understanding of full-stack development.

Business analysis by Simplilearn

Completed the Business Analysis Basics course from Simplilearn SkillUp, gaining essential skills in requirement analysis, stakeholder management, and business process understanding.

HTML, CSS, JavaScript by simplilearn

successfully completed HTML, CSS, and JavaScript beginner courses from Simplilearn, building a strong foundation in web development.
